## Better cancer care in focus at Uppsala Health Summit 2018

Thanks to advances in treatment options, the chances of surviving cancer are better than ever before. However, cancer incidence is increasing and new forms of therapy are expensive. As a result, resource management and priority setting face major challenges. *How can we ensure equitable access to diagnosis and treatment?* This topic is the focus of Uppsala Health Summit 2018, "Care for Cancer, June 14-15 at Uppsala Castle.

## Who should be there?

Each year, Uppsala Health Summit invite leading practitioners and policy-makers from around the world to develop and refine priority actions to address key public health challenges of our time.

*Who do you think should be part of the dialogue?*

## Apply for a grant to join the summit on Care for Cancer!

We are happy to announce the possibility to apply for a scholarship covering costs for travel to the summit, hotel and meals at the summit. This offer is possible thanks to generous support from the WHO-Uppsala Monitoring Centre.

Details on how and when to apply will be posted on our home page shortly!
