### Post-Conference Report is here

The conclusions from the discussions at Uppsala Health Summit 2017: Tackling Infectious Disease Threats - Prevent, Detect and Respond with a One Health Approach are now captured in a report.

Download the publication from our website and read up on the latest thinking on zoonotic disease management, from the perspectives of the 180 delegates from 39 countries who came to the meeting in October.

### Safe Medicines and One Health

In this podcast, medical doctor Rebecca Chandler talks about pharmacovigilance in emergencies, and how to monitor potential side effects in outbreak situations. Drawing on the workshop she held at the summit of 2017, Dr Chandler highlights issues of real-time safety surveillance, public trust, and how to build a culture of pharmacovigilance that's anchored in citizen participation as well as scientific processes.
